Build Relationships and reduce barriers.

Administrators must take the lead on relationship building, learning and changing practices and policies. If administrators do not take the lead, the message is that it isn't important enough for the leader in the building to make time for, and so it isn't important to you. Do not leave the heavy lifting to those who are hired to take direction from you.

See and Hear What Others are Doing

- Go on a school visit.
- Visit the communities your students are coming from.
- Reach out to Education Departments at Tribal Councils
- Reach out to Directors of Education or portfolio holders
- Come to Treaty Four Gathering in September

Transformation Cycle

These things are visible and important. They don't happen without engaging in a transformation cycle. If you are listening, and have a desire for change, this cycle happens over and over.
